The Editor-in-Chief, with advice from members of the Editorial Board, reviews requests for publication of symposia on topics of interest to readers of *Neurology*. The decision to publish a symposium as a supplement to *Neurology* is based on the topic, the supplement editors, and the contributors. Once a decision is made to publish a symposium as a supplement, it is not peer reviewed by the Editorial Board of *Neurology*. The individual authors are responsible for their own contributions, and the supplement editors are responsible for the overall quality of the supplement.

Dedication

We are grateful to Zaven S. Khachaturian, PhD, and Teresa S. Radebaugh, ScD. They were the first to recognize the need for CERAD and to imagine its full potential for clinical investigations of dementia, in both the US and abroad. From the beginning, they generated critical support, helped shape its mission, and were constantly available to lend encouragement and guidance. For their invaluable contributions, we dedicate to them this summary of the accomplishments of CERAD.
