The Editor-in-Chief, with advice from members of the Editorial Board, reviews requests for publication of symposia on topics of interest to readers of Neurology. The decision to publish a symposium as a supplement to Neurology is based on the topic, the supplement editors, and the contributors. Once a decision is made to publish a symposium as a supplement, it is not peer reviewed by the Editorial Board of Neurology. The individual authors are responsible for their own contributions, and the supplement editors are responsible for the overall quality of the supplement.
