### THIS WEEK IN Neurology®

#### 621 Highlights of the February 23 issue

**EDITORIALS**

622 Is migraine a dangerous disease?  
*Hans-Christoph Diener and Judith U. Harrer*

624 Pediatric status epilepticus: Should the diagnostic evaluation change?  
*Shlomo Shinnar and Dale C. Hesdorffer*

626 Diffusion tensor imaging: A biomarker for mild traumatic brain injury?  
*Erin D. Bigler and Jeffrey J. Bazarian*

**ARTICLES**

628 Migraine and cardiovascular disease: A population-based study  
*M.E. Bigal, T. Kurth, N. Santanello, D. Buse, W. Golden, M. Robbins, and R.B. Lipton*  
*Editorial, p. 622*

636 Prospective study of new-onset seizures presenting as status epilepticus in childhood  
*Editorial, p. 624*

643 A prospective diffusion tensor imaging study in mild traumatic brain injury  
*Editorial, p. 626*

651 Intramuscular interferon beta-1a in chronic inflammatory demyelinating polyradiculoneuropathy  
*R.A.C. Hughes, K.C. Gorson, D. Cros, J. Griffin, J. Pollard, J.-M. Vallat, S.L. Maurer, K. Riester, G. Davar, K. Dawson, and A. Sandrock, for the Avonex® CIDP Study Group*  
*Editorial, p. 628*

658 Brain-water diffusion coefficients reflect the severity of inherited prion disease  

**VIEWS & REVIEWS**

666 Measuring disease progression in frontotemporal lobar degeneration: A clinical and MRI study  
*E. Gordon, J.D. Rohrer, L.G. Kim, R. Omar, M.N. Rossor, N.C. Fox, and J.D. Warren*

674 Cardiac involvement is frequent in patients with the m.8344A>G mutation of mitochondrial DNA  
*K. Wahbi, S. Larue, C. Jardel, C. Meune, T. Stojkovic, F. Ziegler, A. Lombe`s, B. Eymard, D. Duboc, and P. Laforêt*

678 Responsiveness of different rating instruments in spinocerebellar ataxia patients  

**SPECIAL ARTICLE**

691 Assessment: Symptomatic treatment for muscle cramps (an evidence-based review): Report of the Therapeutics and Technology Assessment Subcommittee of the American Academy of Neurology  
*H.D. Katzberg, A.H. Khan, and Y.T. So*

**CLINICAL/SCIENTIFIC NOTES**

697 Noncompressive myopathy associated with violent axial tics of Tourette syndrome  
*J.D. Isaacs, M. Adams, and A.J. Lees*

699 Serotonin syndrome after administration of milnacipran for fibromyalgia  
*H.A. Yacoub, W.G. Johnson, and N. Souayah*

**RESIDENT & FELLOW SECTION**

e25 Child Neurology: A patient with dissimilar eye color and deafness  
*C. Soni and G. Kumar*

FUTURE ISSUES
A11–24 Abstracts
A34 In the Next Issue of Neurology®

Assessment: Symptomatic treatment for muscle cramps (an evidence-based review)
The weekly podcast of content from Neurology is located on the AAN Web site at www.aan.com. Select the “Podcast” button in the Neurology section under Academy Publications to subscribe to the podcasts or listen to an individual podcast.
This week’s podcast features an interview by Dr. Ted Burns with Dr. Hans Dieter Katzberg about the AAN guidelines on treatment for muscle cramps.

Neurology® Online CME Program
Earn CME while reading Neurology. This program is available only to online Neurology subscribers. Simply read the articles marked CME, go to www.neurology.org, and click on CME. This will provide all of the information necessary to get started. The American Academy of Neurology (AAN) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians. Neurology is planned and produced in accordance with the ACCME Essentials. For more information, contact AAN Member Services at 800-879-1960.
