### IN FOCUS
1503  Spotlight on the October 18 Issue

### EDITORIALS
1504  Big brain/smart brain  
Peter B. Rosenberger and Heather R. Adams

1506  I am conscious: Mr ASL says so  
C. Schnakers, S. Laureys, and S. Majerus

1508  Muscle ultrasound detects fasciculations and facilitates diagnosis in ALS  
Michael Swash and Mamede de Carvalho

### ARTICLES
1510  Perinatal cortical growth and childhood neurocognitive abilities  
Editorial, p. 1504

1518  Arterial spin labeling and altered cerebral blood flow patterns in the minimally conscious state  
Editorial, p. 1506

1524  Age-related changes in the default mode network are more advanced in Alzheimer disease  

1532  Ultrasonographic detection of fasciculations markedly increases diagnostic sensitivity of ALS  
Editorial, p. 1508

1538  Meralgia paresthetica: Relation to obesity, advanced age, and diabetes mellitus  
T.J. Parisi, J. Mandrekar, P.J.B. Dyck, and C.J. Klein

1543  Transcobalamin 2 variant associated with poststroke homocysteine modifies recurrent stroke risk  

1551  A phase III study evaluating the efficacy and safety of MBP8298 in secondary progressive MS  
M.S. Freedman, A. Bar-Or, J. Oger, A. Traboulsee, D. Patry, C. Young, T. Olsson, D. Li, H.-P. Hartung, M. Krantz, L. Ferenczi, and T. Verco, on behalf of the MAESTRO-01 Investigators

1561  Hypereosinophilia in patients with multiple sclerosis treated with natalizumab  
M. Abbas, P.H. Lalive, M. Chofflon, H.-U. Simon, C. Chizzolini, and C. Ribi

### GLOBAL PERSPECTIVES
1565  Global Perspectives  
Ahmad Khalifa and Johan A. Aarli

### CLINICAL IMPLICATIONS OF NEUROSCIENCE RESEARCH
1568  Nitric oxide: A pleiotropic signal in the nervous system  
Eduardo E. Benarroch

### CLINICAL/SCIENTIFIC NOTES
1577  Reversible right vagal neuropathy  
S. Muppidi, P.K. Gupta, and S. Vernino

### HISTORICAL ABSTRACT
1579  Epidemiologic assessment of chronic atrial fibrillation and risk of stroke: The Framingham Study  
P.A. Wolf, T.R. Dawber, H.E. Thomas, Jr., and W.B. Kannel

### RESIDENT & FELLOW SECTION
e94  Teaching NeuroImages: Reversible splenial cytotoxic edema in acute mountain sickness  
Chang Hun Bin and Se-Jin Lee
CORRESPONDENCE
1580 A novel DCC mutation and genetic heterogeneity in congenital mirror movements

DEPARTMENTS
1581 Genetic associations with brain microbleeds: Systematic review and meta-analyses
1582 Calendar
A47 In the Next Issue of Neurology®
