IN FOCUS
295 Spotlight on the January 31 Issue

EDITORIALS
296 MS cortical lesions on double inversion recovery MRI: Few but true
Olga Ciccarelli and Jacqueline T. Chen
298 Understanding risk in asymptomatic carotid stenosis: Lessons from patients’ preferences
Gustavo Saposnik and Raffi Topakian
300 Is the development of late-life cognitive impairment more dynamic than sexy?
Kenneth Rockwood

ARTICLES
302 Postmortem verification of MS cortical lesion detection with 3D DIR
Editorial, p. 296
309 Association of MRI metrics and cognitive impairment in radiologically isolated syndromes
M.P. Amato, B. Hakiki, B. Goretti, F. Rossi, M.L. Stromillo, A. Giorgio, M. Roscio, A. Ghezzi, L. Guidi, M.L. Bartolozzi, E. Portaccio, and N. De Stefano, for the Italian RIS/MS Study Group
315 A randomized trial of decision-making in asymptomatic carotid stenosis
Editorial, p. 298
322 Linking MRI to daily life experience: The example of poststroke depression
S. Lassalle-Lagadec, M. Allard, B. Dilharreguy, P. Schweitzer, J. Swendsen, and I. Sibon
323 Comment: Mobile technology in neurology
Henri Chabrol and Judith U. Harrer
326 Cerebral microbleeds are associated with worse cognitive function: The Rotterdam Scan Study
329 The incidence of MCI differs by subtype and is higher in men: The Mayo Clinic Study of Aging
R.O. Roberts, Y.E. Geda, D.S. Knapman, R.H. Cha, V.S. Pankratz, B.F. Boeve, E.G. Tangalos, R.J. Ivnik, W.A. Rocco, and R.C. Petersen
Editorial, p. 300
334 Genetic variation at CR1 increases risk of cerebral amyloid angiopathy
342 The incidence of MCI differs by subtype and is higher in men: The Mayo Clinic Study of Aging
R.O. Roberts, Y.E. Geda, D.S. Knapman, R.H. Cha, V.S. Pankratz, B.F. Boeve, E.G. Tangalos, R.J. Ivnik, W.A. Rocco, and R.C. Petersen
Editorial, p. 300
352 Functional integration of parietal lobe activity in early Alzheimer disease

CLINICAL/SCIENTIFIC NOTES
361 Prominent 5–18 Hz oscillations in the pallidal-thalamic circuit in secondary dystonia
E.W. Tsang, C. Hamani, E. Moro, F. Mazzella, A.M. Lozano, I.J. Yeh, and R. Chen

NEUROIMAGES
364 Muscle MRI in TRPV4-related congenital distal SMA

RESIDENT & FELLOW SECTION
366 Clinical Reasoning: A 33-year-old woman with severe postpartum occipital headaches
Nancy Maalouf and Sami I. Harik
367 Child Neurology: Paroxysmal stiffening, upward gaze, and hypotonia: Hallmarks of sepiapterin reductase deficiency
368 Teaching NeuroImages: Distinct neuroimaging features of fucosidosis
P. Jain, K. Ramesh, A. Mohamed, A. Kumar, and S. Gulati

Neurology® Online CME Program

Earn CME while reading Neurology. This program is available only to online Neurology subscribers. Simply read the articles marked CME, go to www.neurology.org, and click on CME. This will provide all of the information necessary to get started. The American Academy of Neurology (AAN) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians. Neurology is planned and produced in accordance with the ACCME Essentials. For more information, contact AAN Member Services at 800-879-1960.
