IN FOCUS
111 Spotlight on the July 10 Issue

EDITORIALS
112 Genomic medicine enters the neurology clinic
G. Coppola and D.H. Geschwind

115 Does experience doing lumbar punctures result in expertise? A medical maxim bites the dust
B.R. Nathan and O. Kincaid

117 Deconstructing health disparities: It’s not just about race
R.T. Benson and J.W. Freeman

119 Falls and fractures in patients with epilepsy: Is there an increased risk? If so, why?
A.M. Pack

IN MEMORIAM
121 Paul H. Crandall, MD (1923–2012)
J. Engel, Jr. and G.W. Mathern

ARTICLES
123 Exome sequencing as a diagnostic tool in a case of undiagnosed juvenile-onset GM1-gangliosidosis
Editorial, p. 112; see p. 127 and 192

127 Exome sequencing in an SCA14 family demonstrates its utility in diagnosing heterogeneous diseases
Editorial, p. 116; see p. 123 and 192

132 Simulation-based education with mastery learning improves residents’ lumbar puncture skills
Editorial, p. 115

138 Lower use of carotid artery imaging at minority-serving hospitals
Editorial, p. 117

145 Falls and fractures in patients chronically treated with antiepileptic drugs
B. Shiek Ahmad, K.D. Hill, T.J. O’Brien, A. Gorelik, N. Habib, and J.D. Wark
Editorial, p. 119

152 Do acute phase markers explain body temperature and brain temperature after ischemic stroke?

159 Importance of SPP1 genotype as a covariate in clinical trials in Duchenne muscular dystrophy

163 Randomized clinical trial of fipamezole for dyskinesia in Parkinson disease (FJORD study)

170 PRRT2 mutations: A major cause of paroxysmal kinesigenic dyskinesia in the European population

175 Abnormal whole-brain functional networks in homogeneous mild traumatic brain injury
E. Shumskaya, T.M.J.C. Andriessen, D.G. Norris, and P.E. Vos

VIEWS & REVIEWS
183 New nomenclature and classification scheme for the neuronal ceroid lipofuscinoses
R.E. Williams and S.E. Mole

CONTINUED
Exome sequencing identifies a novel TRPV4 mutation in a CMT2C family
Editorial, p. 112; see p. 123 and 127

Immunotherapy-responsive chorea as the presenting feature of LGI1-antibody encephalitis

Not Just Yet
C.J. Creutzfeldt

Pearls & Oy-sters: Osteoid osteoma of the scapula masquerading as neuralgic amyotrophy
P.S. Ghosh, S.R. Mitra, and M. Moodley

Teaching NeuroImages: Neurogenic thoracic outlet syndrome
M. Luigetti, F. Capone, and V. Di Lazzaro

Comment: Frontal lobes, executive dysfunction, gait, and the fallacy of pseudo-transitivity
M. Filippi, F. Agosta, V. Kostić, on behalf of all authors of “Pattern of brain tissue loss associated with freezing of gait in Parkinson disease”; Author Response: E.B. Montgomery, Jr.

Mutation in the CHAC gene in a family of autosomal dominant chorea-acanthocytosis
R.H. Walker, A. Velayos-Baeza, B. Bader, A. Danek; Author Response: S. Saiki

Pilomotor seizure: When paroxysmal gooseflesh heralds brain tumor
