## IN FOCUS

**725** Spotlight on the August 21 Issue

## EDITORIALS

**726** Imaging markers of incipient dementia: The white matter matters  
*O.T. Carmichael and S. Salloway*

**728** Medication management after epilepsy surgery: Are we closer to an answer?  
*L. Jehi*

**730** A designer drug for amyloid polyneuropathy  
*C. Chalk*

**732** Low-contrast multifocal visual evoked potentials: Identifying more shades of gray in MS  
*M.J. Thurtell and S.L. Galetta*

## ARTICLES

**734** MRI-leukoaraiosis thresholds and the phenotypic expression of dementia  
*Editorial, p. 726; see p. 741 and 748*

**741** Trajectory of white matter hyperintensity burden preceding mild cognitive impairment  
*Editorial, p. 726; see p. 734 and 748*

**748** Microstructural white matter changes in cognitively normal individuals at risk of amnestic MCI  
*Editorial, p. 726; see p. 734 and 748*

**755** Obesity phenotypes in midlife and cognition in early old age: The Whitehall II cohort study  

**763** Microbleeds do not affect rate of cognitive decline in Alzheimer disease  
*A.E. van der Vlies, J.D.C. Goos, F. Barkhof, P. Scheltens, and W.M. van der Flier*  
*Editorial, p. 726; see p. 741 and 748*

**770** Feasibility of antiepileptic drug withdrawal following extratemporal resective epilepsy surgery  
*R. Menon, C. Rathore, S.P. Sarma, and K. Radhakrishnan*  
*Editorial, p. 728*

**777** PRRT2 phenotypes and penetrance of paroxysmal kinesigenic dyskinesia and infantile convulsions  

**785** Tafamidis for transthyretin familial amyloid polyneuropathy: A randomized, controlled trial  
*Editorial, p. 730*

**793** Pregnancy-related hemangioblastoma progression and complications in von Hippel-Lindau disease  
*Editorial, p. 730*

**797** Multifocal visual evoked potentials are influenced by variable contrast stimulation in MS  
*Editorial, p. 732*

**802** Long-term learning of stroke knowledge among children in a high-risk community  
*O. Williams, A. DeSorbo, J. Noble, M. Shaffer, and W. Gerin*  
*Editorial, p. 732*

CLINICAL IMPLICATIONS OF NEUROSCIENCE RESEARCH

807  Endogenous opioid systems: Current concepts and clinical correlations
     E.E. Benarroch

CONTEMPORARY ISSUES IN NEUROLOGIC PRACTICE

815  Adult neurology training during child neurology residency
     N.F. Schor

818  Comment: What do child neurologists need to know, and how can they best learn it?
     D. Gelb

818  Comment: Engaging the trainee during all stages of child neurology residency
     H.P. Goodkin

819  Comment: Right-sizing adult neurology training for the child neurologist
     P.L. Pearl

819  Comment: Child neurology training—The adult neurology program director perspective
     J.C. Morgenlander

CONTEMPORARY ISSUES IN NEUROLOGIC PRACTICE: HORIZONS

820  Restoring medical professionalism
     J.L. Bernat

CLINICAL/SCIENTIFIC NOTES

828  Chronic active varicella zoster virus infection
     J. Wolf, M.A. Nagel, R. Mahalingam, R.J. Cohrs, D.S. Schmid, and D. Gilden

829  Acute hydrocephalus due to impaired CSF resorption in Toscana virus meningoencephalitis
     J. Oechtering and G.C. Petzold

NEUROIMAGES

832  Acquired pendular nystagmus from cerebellar nodulus acute ischemic lesion
     E. Rota, N. Morelli, P. Immovilli, F. Magnifico, G. Crisi, D. Guidetti

RESIDENT & FELLOW SECTION

e70  Clinical Reasoning: A young man with reversible paralysis, cerebral white matter lesions, and peripheral neuropathy
     L. Zhong, K. Yan, C. Liu, J. Xue, L. Wu, and F. Yin

e73  Media and Book Reviews: Luria's Legacy in the 21st Century
     J.K. Gregory

e74  Teaching NeuroImages: CNS involvement in systemic anaplastic large-cell lymphoma
     M. Thangarajh and S.S. Mar

e76  Teaching NeuroImages: Ganglion cyst causing pure sensory ulnar neuropathy at the wrist
     C. Karam, C.C. Quinn, S. Paganoni, and W.S. David

WRITE CLICK: EDITOR'S CHOICE

833  Lamotrigine and aseptic meningitis
     W. Tatum, N.K. Sethi; Author Response: K.M. Simms, C.K. Peter, M. Avigan

DEPARTMENTS

835  Book Review
     A29  In the Next Issue of Neurology®
