

**Neurology® Copyright Form**

Manuscript Title \_\_\_\_\_ MS NUMBER \_\_\_\_\_  
Corresponding Author \_\_\_\_\_

This Copyright Transfer Agreement enables AAN Enterprises, Inc., ("AEI") a wholly owned subsidiary of the American Academy of Neurology, to provide for the widest possible dissemination of the Work through activities such as, but not limited to, retrievability and accessibility of information, delivery of information, individual article supply, production of microfilm editions, authorization and distribution of reprints, translation, authorization of abstracting and indexing services in print and database formats, and other forms of distribution for use of all or part of the article in electronic and all other media known or yet to be developed. This transfer of copyright also enables AEI to defend against plagiarism and other forms of copyright infringement.

**Author's Representations and Warranties:** Author warrants that he or she has full power to enter into this Agreement and to grant all rights transferred hereunder. Author warrants that the submitted manuscript contains Author's original work, has not been published before, is not in the public domain (unless noted below), and does not infringe upon any statutory copyright or upon any common law right, proprietary right, or any other right. Author warrants to AEI that this Work does not violate any trademark registrations or the right of privacy of any person, contains no libelous, obscene, or other unlawful matter, and does not infringe upon the statutory or common law copyright or any other right of any person or party. If excerpts (text, figures, tables, or illustrations) from copyrighted works are included, Author will secure written permission to use those excerpts prior to submission, and will credit the original publication properly. Author further warrants that (i) he or she has obtained, prior to submission, valid written authorizations from all patients whose names, photographs or other protected health information are submitted as part of the Work and (ii) he or she shall maintain such authorizations and inform AEI in a timely manner of any revocation by a patient of such authorization. Author or, if applicable, Author's employer, will indemnify and hold harmless AEI, its affiliates, and all of their respective officers, directors, employees, and agents from any damages, costs, or losses (including attorneys' fees and costs of litigation) made by any claim, demand, lawsuit, or other proceeding in which it is alleged that Author has violated the rights of others (including, without limitation, any right of privacy) or has made libelous or unlawful statements or violated any copyright, trademark, or other proprietary right. If the article was prepared jointly with other Authors, each Author must sign this Copyright Transfer Agreement.

**Copyright Transfer:** Author hereby grants, transfers, and assigns exclusively to AEI all copyright rights that he or she has in the Work, in all media known or hereafter developed, throughout the world and for the full term of the copyright including all extensions and renewals. The rights granted to AEI herein shall include, but not be limited to, all rights of copyright registration and publication, the right to create derivative works, and all other rights incident to copyright ownership in all media known or unknown. However, the following rights are reserved to Author: (a) trademark rights and patent rights, if any; and (b) the right to revise, adapt, prepare derivative works, present orally or distribute the work, provided that all such use is solely for personal non-commercial use by Author. If the submission is made within the scope of Author's employment, the employer may use all or part of the information contained in this article for intra-company use, provided the following statement is prominently included on each page: [Citation] © [Year of publication] Reprinted with permission by AAN Enterprises, Inc.

**NIH-Funded Studies and Public Access:** Lippincott, Williams & Wilkins will submit the final published article of any study funded by NIH (or for which any of the authors are funded by NIH) to NIH for publication on PubMed Central no later than 12 months after print or online publication (whichever is first) in *Neurology*. This authorization is a non-exclusive license only for the purpose stated in the NIH Public Access Policy. AEI reserves all rights not specifically granted in this non-exclusive license.

Authors must check below if this study is funded by one of the organizations below or if the author's salary is paid by any of these organizations:

- National Institutes of Health (NIH)
- Wellcome Trust
- Howard Hughes Medical Institute (HHMI)
- Research Council – UK

Select one of the following:

- I am an Author of this Work, and the Work was not prepared as part of my duties as an employee. For consideration received, I hereby grant, transfer, and assign exclusively to AEI all copyright rights that I have in the Work, in all media known or hereafter developed, throughout the world, and for the full term of the copyright including all extensions and renewals.
