

Neurology[®] Genetics

Vision

Neurology[®] Genetics will be the premier peer-reviewed journal in the field of neurogenetics.

Mission

Neurology: Genetics will provide neurologists and clinical research scientists with outstanding peer-reviewed articles, editorials, and reviews to elucidate the role of genetic and epigenetic variations in diseases and biological traits of the central and peripheral nervous systems.

Editor

STEFAN M. PULST, MD, FAAN

University of Utah
Department of Neurology
Salt Lake City, UT

Specialties: Genetics, movement disorders

Deputy Editor

MASSIMO PANDOLFO, MD, FAAN

Service de Neurologie,
Hospital Erasme
Université Libre de Bruxelles
Brussels, BELGIUM

Specialties: Spastic paraplegia, Huntington disease, ataxia

Associate Editors

ALEXANDRA DURR, MD, PhD

ICM and Genetic Department
Hopital de la Salpetriere
Paris, FRANCE

*Specialties: Spastic paraplegia,
Huntington disease, ataxia*

SUMAN JAYADEV, MD

University of Washington
Medicine Memory and Brain
Wellness Center
Harborview Medical Center
Seattle, WA

*Specialties: Neurodegeneration,
neuroinflammation*

**MARGHERITA MILONE, MD,
PhD, FAAN**

Mayo Clinic
Department of Neurology
Rochester, MN

*Specialties: Hereditary myopathies,
congenital myasthenic syndromes,
mitochondrial disorders and muscle
pathology*

RAYMOND P. ROOS, MD, FAAN

University of Chicago
Medical Center
Chicago, IL

*Specialties: Motor neuron disease,
prion disease, neurovirology/
neuroimmunology*

HILARY COON, PhD
University of Utah
Utah Autism Research Project
Salt Lake City, UT

Specialties: Biostatistics, suicide, autism spectrum disorders, statistical genetics, genetic epidemiology, child psychiatry, obesity, pulmonary fibrosis, nicotine dependence

GIOVANNI COPPOLA, MD
Semel Institute for Neuroscience and Human Behavior
Depts. of Psychiatry & Neurology
David Geffen School of Medicine
#3506C Gonda Neuroscience and Genetics Research Center
University of California
Los Angeles
Los Angeles, CA

Specialties: Genetics, genomics, neurodegeneration

CHANTAL DEPOND, MD, PhD
Department of Neurology
Hôpital Erasme
Université Libre de Bruxelles
Brussels, BELGIUM

Specialties: Epilepsy, pharmacogenetics, ataxia, neurogenetics

BRENT L. FOGEL, MD, PhD, FAAN
David Geffen School of Medicine University of California, Los Angeles
UCLA Depts. of Neurology and Human Genetics
Los Angeles, CA

Specialties: Neurogenetics, genomics, cerebellar ataxia, spastic paraplegia, leukodystrophy, precision health

ANTHONY J. GRISWOLD, PhD
University of Miami Miller School of Medicine
Miami, FL

Specialties: Bioinformatics, developmental disorders, Alzheimer disease

ORHUN H. KANTARCI, MD
Mayo Clinic
Department of Neurology
Rochester, MN

Specialties: Muscular dystrophies, mitochondrial disorders, and hereditary myopathies

JULIE R. KORENBERG, MD, PhD
University of Utah
Salt Lake City, UT

Specialties: Pediatrics, Down syndrome, Williams syndrome

DAVIDE PAREYSON, MD
Rare Neurodegenerative and Neurometabolic Diseases Unit
Department of Clinical Neurosciences
IRCCS Foundation
C. Besta Neurological Institute
Milan, ITALY

Specialties: Inherited neuropathies, spinal and bulbar muscular atrophy, clinical neurogenetics

SHOJI TSUJI, MD, PhD
University of Tokyo Graduate School of Medicine Neurology
Tokyo, JAPAN

Specialty: Molecular genetics

DINEKE VERBEEK, PhD
Department of Genetics, University Medical Center Groningen
Groningen,
THE NETHERLANDS

Specialties: Functional neurogenetics, with focus on rare movement disorders including ataxia, dystonia and familial Parkinson's disease.

DAVID VISKOCHIL, MD, PhD
University of Utah
Department of
Pediatrics–Division of Medical
Genetics
Salt Lake City, UT

Specialty: Molecular genetics

JULIANE WINKELMANN, MD
Helmholtz Zentrum München
German Research Centre for
Environmental Health
Director of the Institute for
Neurogenomics
Neuherberg, GERMANY

Specialty: Neurogenomics

JUAN I. YOUNG, PhD
University of Miami
Department of Human Genetics
Miami, FL

*Specialties: Epigenetics,
pathophysiology, cognitive
disorders, neurogenetics,
Rett syndrome*
